

Targeted Progressive Restoration

The purpose of this chart is to diagram a prioritized biblical progression of restoration. Misplaced priorities in the process invite disaster. Too many times the focus is “how quick can I get back into ministry” rather than how do I renew my relationship with God, family, congregation and community.

Impatience is the enemy of restoration. It takes time to restore those who have fallen. It takes time to prove the authenticity of repentance (Matt 3:8, Acts 26:20b). It takes time to rebuild broken relationships. It takes time to regain a lost reputation. You can't rebuild in a day what years of neglect have produced .
